

16-days Basic Close Protection Training

Interested in close protection, protective driving and (advanced) firearm training? Save time and money by registering for this intensive and interactive training, in which most crucial elements of all three of the close protection training of the ICPTA are included. Participants spend 40% in the classroom and 60% outside. This course is ideal for newcomers in the close protection or as a comprehensive refresher course.

- Discussing recent kidnappings, assassinations and how to prevent it.
- The discovery of surveillance and engaging in good counter-surveillance techniques.
- Discuss protective detail motorcade operations and procedures.
- Getting a specialized driver training.
- Understanding the importance of advanced security surveys.
- Viewing command post equipment and activities needed to improve your safety and manpower.
- Learning to recognize the different behavioral characteristics in order potential attackers to identify.
- The practice of the classroom lessons in the practical exercises and assault-on principal scenarios based on real-life attacks.
